Spring Cleaning Checklist

HOME MAINTENANCE

As the days get longer and temperatures begin to rise, now is the perfect time to give our homes some tender loving care.

“We spend a lot of time in and around our home, so it pays to look after it,” CatholicCare Home & Yard Maintenance Team Leader, **Mick Swan** explained.

“For our homes to be safe and habitable, we need to maintain the upkeep.

“Neglecting our home can not only mean that it becomes costly to repair over time, but ultimately it could become unsafe for us to live in as well”

Mick said that a great way to get started with giving our homes a little springtime TLC, was to follow some simple cleaning and maintenance checklists.

Cleaning:

- ✓ Check for signs of mold or mildew
- ✓ Clean air conditioner filters
- ✓ Clean smoke alarms every six months
- ✓ Clean ceiling fans and have fan socks installed
- ✓ Have your gutters checked and cleared of any debris

General Maintenance:

- ✓ Check and service locks to doors and windows
- ✓ Check screens doors and windows for holes and tears
- ✓ Check rollers on windows
- ✓ Replace smoke alarm batteries
- ✓ Check for leaks
- ✓ Check undersink flexi hoses for signs of deterioration
- ✓ Check lights are working to their full capacity
- ✓ Install a lock box

A clean slate home & mind

Hello and welcome to a brand new edition of Chat Monthly and the brand new season of Spring.

I am writing this message in place of Jason Reid this month, as Jason, your usual General Manager for Health and Wellbeing Services is currently on a leave of absence.

As we head into Spring, I find myself considering the old adage; clean your space, clear your mind.

In the same way that it is beneficial to occasionally have a good clear out of the old, damaged or broken things from our home, the same can also be said for our mind.

A change of season can signal a good time to decide to start with a clean slate. By choosing not to focus as much on feelings of negativity, not to dwell in the past too much, and to look forward to a new and positive future, we can finish off the year with a fresh outlook and clear mind.

So, in September as we start to open back up our windows and doors, why not take this opportunity to open up your mind and let those spring breezes blow out the cobwebs. Remember that self improvement can be just as important as home improvement!

I hope that you enjoy reading this month's issue of Chat Monthly and I wish you all the joys of spring. Make the most of the warmer weather and stay safe out there!

Robert Sims

CatholicCare Director

[Acting General Manager Health & Wellbeing Services – Rockhampton Region]

COMMUNITY

Research Partnership

CQUniversity will soon be conducting a research project based on the services that support older people to live at home for as long as possible.

At CatholicCare we are always looking for ways to further support our community and as such we are excited to be partnering with CQUniversity to help facilitate this important research.

In the coming months, you may receive an invitation to participate in an online or paper-based survey if you receive aged care services from us.

The CQUniversity research team will also be offering the opportunity to participate in a focus group (an in-person feedback session) at your local CatholicCare Central Queensland office.

If you have any questions about this upcoming research project, please email:

SOCIAL GROUPS

Sweet trip to the PINEAPPLE FARM

When you are lucky enough to live in Central Queensland, you should really make the effort to take a trip to one of the most iconic fruit farms in the region.

CatholicCare's Social Groups recently enjoyed a trip to a local pineapple farm in Yeppoon where they sampled the delicious produce and admired the vast patches of fruit.

David, a groups attendee who participated in the trip, said it was a very enjoyable experience.

"It's my first time to a pineapple farm," David said.

"One of the chaps on the trip, who I have become good friends with, told us that he used to grow them [pineapples], which was quite interesting to find out."

For the past two years, David has been attending CatholicCare's Social Groups and is fond of the activities that see him travelling around the region.

"I only like to go on activities that go somewhere – it's a wonderful way to explore what's in your backyard," he said.

"Not to mention that a lot of the people I have met over the years on these trips have grown to become good friends of mine."

David said he was a particular fan of the monthly Mystery Tours, where attendees are taken on a trip to a surprise location for the day.

"The [CatholicCare] team try to trick us by driving the bus along different routes in an attempt to confuse us about where we would be going for the day," David chuckled.

"It is always a blast – I have never missed a Mystery Tour. I have been to all the ones that have come up and we have visited so many beautiful places."

If you are seeking adventure, new friendships and good old' fashion fun, give our friendly team a call on 1300 523 985 to learn more and book your next social groups event.

Peace of mind this... **STORM SEASON**

Another winter has come and gone, and we are all now looking forward to the warmer months of spring and summer.

But it is the late spring and summer months that I really want you to start thinking about.

This time of year always brings the threat of heavy rain and damaging winds that come with the Queensland cyclone season.

While we cannot control the weather, there are things that we can do to help reduce the potential damage to our property and to keep our family safe.

Here is a short list of the things that I am working through to prepare my home this storm season:

Ready an emergency kit, including:

- ✓ Torches and spare batteries
- ✓ Battery powered radio
- ✓ First aid kit
- ✓ Prescription medication
- ✓ Masking tape and scissors
- ✓ Bottled water
- ✓ Non-perishable food
- ✓ A camp stove or BBQ with spare gas bottle.

Clean up the yard:

- ✓ Pick up and remove any unnecessary 'things' from around the house.
- ✓ Trim any dead branches from trees, especially those that overhang the house

List emergency contact numbers:

- ✓ Prepare a list of people you may need to call in case of an emergency. *For example: local emergency services, ambulance, relatives and neighbours.*
- ✓ Keep the Bureau of Meteorology phone number handy to call for up-to-date pre-recorded messages.

Tune your radio:

- ✓ Make sure you have your radio tuned to the local radio station frequency for emergency updates and to hear the latest messages from the Bureau of Meteorology.

By performing a handful of these tasks each week, in no time at all you will have peace of mind knowing that your home and your family are safer and better prepared should the worst scenario eventuate!
